

**Mid America Ag Network** is growing, it's time to add another network Account Manager. This is a great opportunity to grow with a REAL AG Network, focused on providing our Kansas, Nebraska and Oklahoma producers the information they need to operate profitably. We're focused on expanding our coverage area deeper into Oklahoma, Missouri and Nebraska, adding more programming, giving our advertisers a better resource to stay in touch with their customers, who are also our listeners. We want a seasoned sales pro with solid contacts in the Agricultural advertising community, a solid work ethic and the ability to think on your feet to identify challenges and provide solutions on the spot. With over 50 years of Agricultural reporting experience and owners that are producers, we are Agriculture!
